A pattern is a regularity in the world, in human-made design, or in abstract ideas. As such, the elements of a pattern repeat in a predictable manner. A geometric pattern is a kind of pattern formed of geometric shapes and typically repeated like a wallpaper design.. Any of the senses may directly observe patterns. Conversely, abstract patterns in science, mathematics, or language may be ...

Living things like orchids, hummingbirds, and the peacock's tail have abstract designs with a beauty of form, pattern and colour that artists struggle to match. The beauty that people perceive in nature has causes at different levels, notably in the mathematics that governs what patterns can physically form, and among living things in the effects of natural selection, that govern how patterns ...

Use batiks in this quick-to-sew bed-size quilt—or not! Delicious sherbet-tone batiks are its foundation, but designer Tammy Kelly has added pretty coordinating prints that fit right in for a softer touch. Start with a simple square, surround it with four mix-and-match rectangles, and voilà—one block is done. Make a block or two each day, and soon you’ll have enough for the stunning ...
